

# GREENFIT<sup>®</sup>

PPR Plumbing Systems  
for Extreme Temperatures

APPROVED BY

Greenfit PPR plumbing systems has superior characteristics to withstand working temperatures upto 95°C along with excellent chemical resistance. It also provides a definite solution to oxidation and calcification. Therefore PPR is an ideal material for hot & cold water plumbing systems in buildings & industrial piping installation which ensures high quality performance.

Pipes as per  
IS: 15801

Fittings as per  
DIN 16962

**BLUE GREENFIT**<sup>®</sup>

PPR Plumbing Systems  
for Extreme Temperatures

Blue Greenfit industrial piping systems. Made of Polypropylene Random Copolymer (PPRC or commonly known as PP-R material) which can withstand temperatures from -0°C up to 95°C. Blue Greenfit is at par with global industry standards and is ideal for pneumatic applications.

Pipes as per  
IS: 15801

Fittings as per  
DIN 16962
